After that, Peter starts to find a suitable voice pitch for prank in Skype Voice Changer. At the beginning Peter clicked on CAT to test the voice, but found it was too high to sound like a girl.

Then he clicks on the Lower button and test the voice again and again. Finally Peter gets a suitable voice for prank.

Peter goes to the Record Setting Tab and turn off the auto notification. If he didn't turn off auto notification, program would automatically send out a message to his friend to acknowledge this prank call after hung up. Then Peter adds some male friends on his new Skype account and imitates a girl in Skype call. When he is using Skype Voice Changer, Peter sounds like a

real girl.

Now you have learnt how Peter changed his voice from male to female by Skype Voice Changer. Quite easy, isn't it?
