#### \* Supports fast/deep registry backup and optimize;

If you have ever used AthTek Registry Cleaner, you would probably know that it is the fastest registry cleaner for you can find. The new version has extended the

scanning depth for you can find more registry entries by this extreme program.

#### \* Supports to backup the registry automatically when system starts;

Each time you start AthTek Registry Cleaner V2.0, it will create a new registry backup in seconds. If you have met any unexpected system errors in using Windows, you can get your registry recovered effortlessly with the backup file. It can help you to keep up to 10 auto backup files, and the newer one will overwrite the oldest one if the program created the #11 backup file.

#### \* Supports Ignore list in registry scanning;

You can set an Ignore list to your registry entries as you wish. Once you have set the Ignore list, those items in this list will not be found in the following scanning and cleaning tasks.

#### \* Supports new item "Invalid MUI Referer" in registry scanning;

"Invalid MUI Referer" stands for the never used skins and colors of other applications. You can remove all of them to boost the system response.

#### \* Supports online live update for free.

AthTek Registry Cleaner V2.0 supports free online updates. This means you don't need to manually download the setup file from our official website from now on. You can just upgrade your version to the latest one for free with one click. As the best <u>registry cleanup tool</u>, AthTek Registry Cleaner are protecting tens of thousands of computers from system errors and crashes. If you have any question or suggestion about AthTek Registry Cleaner V2.0, please feel free to leave your commend below. We will response to your comments ASAP. A discount coupon will be sent to you for thanks!
