* Add new genres to database;

New genres have been added into AthTek DigiBand. You would be able to use Children or Revolution in Genre.

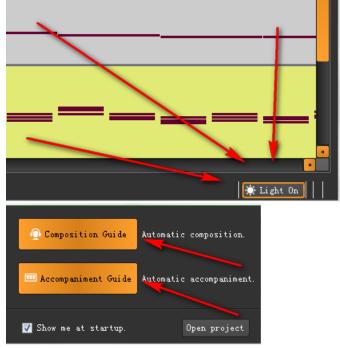

* Support fine adjustment when editing tracks;

With AthTek DigiBand V1.6, you would be able to partly modify a track. You can edit any bar in the track separately. Click on the icons you would be able to select multiple bars for editing.

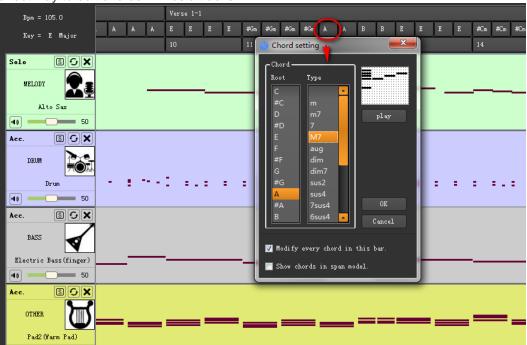

* Support dark interface and highlighted buttons;

Actually you can say that it's the new interface of AthTek DigiBand. Click on the button on bottom right corner, you would be able to switch the interface to dark or light. Also you probably find that some buttons have been highlighted on the panels of AthTek DigiBand. The highlighted buttons show you those MUST select buttons in using.

* Support to modify chords directly on the main panel.

Click on any chord on DigiBand's panel, you would be able to edit the chord directly. It provides a

direct way to edit chords in music tracks.
