

Skype Voice Changer V2.6 Has Been Released, Flash Sending Supported!

We have just released a new version of [Skype Voice Changer](#), which supports to send out flash movies for free and get a notification bug fixed. All the users including free trial users are allowed to upgrade it to the latest version for free. If you are looking for a funny application to play pranks on your friends, Skype Voice Changer will be a nice choice for you to make a good laugh.

[Download and Install Skype Voice Changer V2.6 for Free!](#)

What's New?

* Supports to send flash to contacts.

Skype Voice Changer v2.6 supports to send flash movie to contacts. Users can simply enable/disable flash sending function in Menu → Options → Enable Flash Playing. It requires your contact has installed [AthTek Skype Recorder](#) or Skype Voice Changer on the computer, then you can send flash emotions to the other side for free during the Skype call.

* Fix a bug in auto notification.

Aaleyah Daoud reported that even he unselected the notification option, the contact will also receive the notification. We found a bug in notification and got it fixed now.
