The [special offer for business promotion](#) has been expired at the end of January, and the new special offer for our new software product is coming: anyone who purchases **AthTek WebAPP Kit** in February, he can save as much as **$496** from the normal price ~~$995~~ for lifetime use.

### Get AthTek WebAPP Kit To Save $496 Now!

**AthTek WebAPP Kit** is an advanced web authoring tool for software developers who need to develop internet applications according to their PC programs. It works together with popular programming tool such as Delphi, and convert C/S type software projects into B/S type internet applications easily and effectively. It enables you to provide both downloadable software packages and online app in SaaS mode to your customers. You can create rich internet applications (RIA) even you are not master of web authoring tools such as HTML, ASP, PHP or JAVA.

We put AthTek WebAPP Kit into our monthly special offer in February, and it will get back to its normal price $995 since March 1. If you want to have a web development tool which can help you to create both software package and internet app at the same time, we highly recommend to download and try our WebAPP Kit. You will find use of it!
