December 3rd, 2012 | Development Center of AthTek Software

We have released **AthTek Skype Recorder v5.9.5**, which has a lot of new features included. Anyone who is using or testing this call recorder for Skype can upgrade it to the latest version now for free. The new version will be able to provide better Skype call recording service on your computer.

[Download and Install AthTek Skype Recorder v5.9.5 for Free](#)

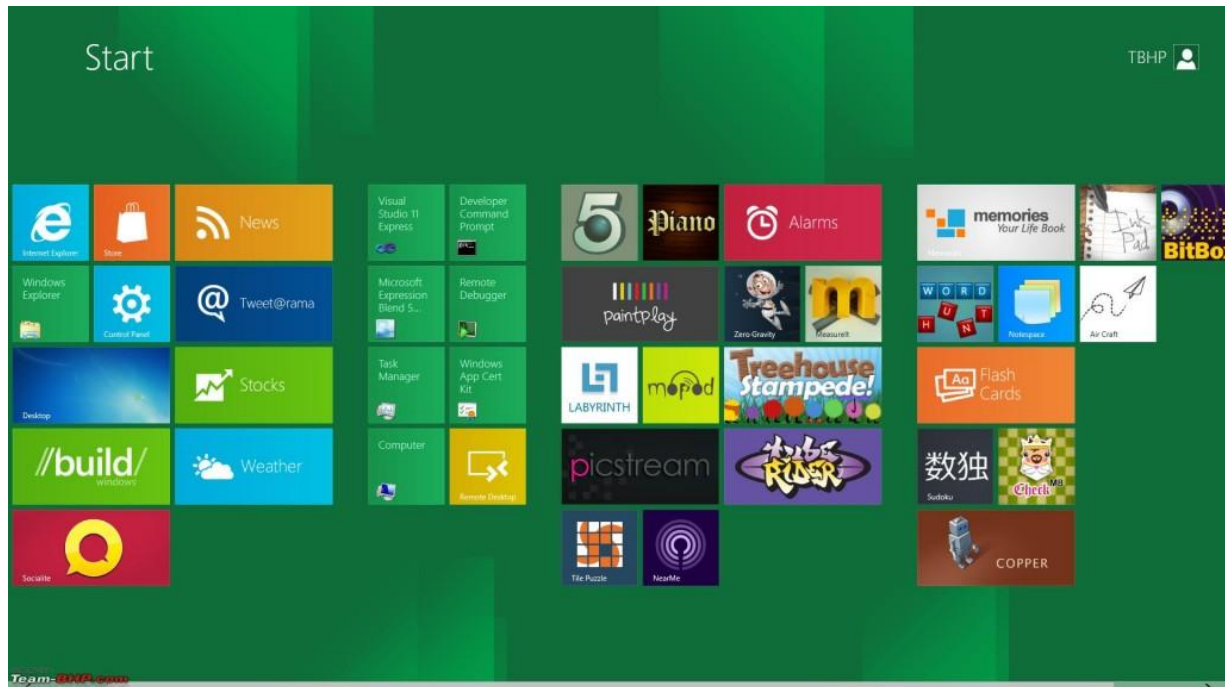

What's New?

* Supports to record Skype calls on Windows 8;

AthTek Skype Recorder v5.9.5 supports to record Skype calls on Windows 8 systems. It is one of the several call recorder for Skype which are compatible with

Win8.

*** Use new program icon and buttons;**

The new version has changed the program icon and buttons. This definitely enhance the user experiences in record Skype calls.

*** Enhance the compatibility with Skype 6.0;**

Since Skype has released its version 6.0, we received many feedback from our customers. They said the video recorder cannot recognize the Skype video chat automatically. They have to manually drag and drop the video button to Skype video chat to record exactly the video call. This problem has been completely solved in this new version.

*** Fix a little bug in showing trial info on a full version;**

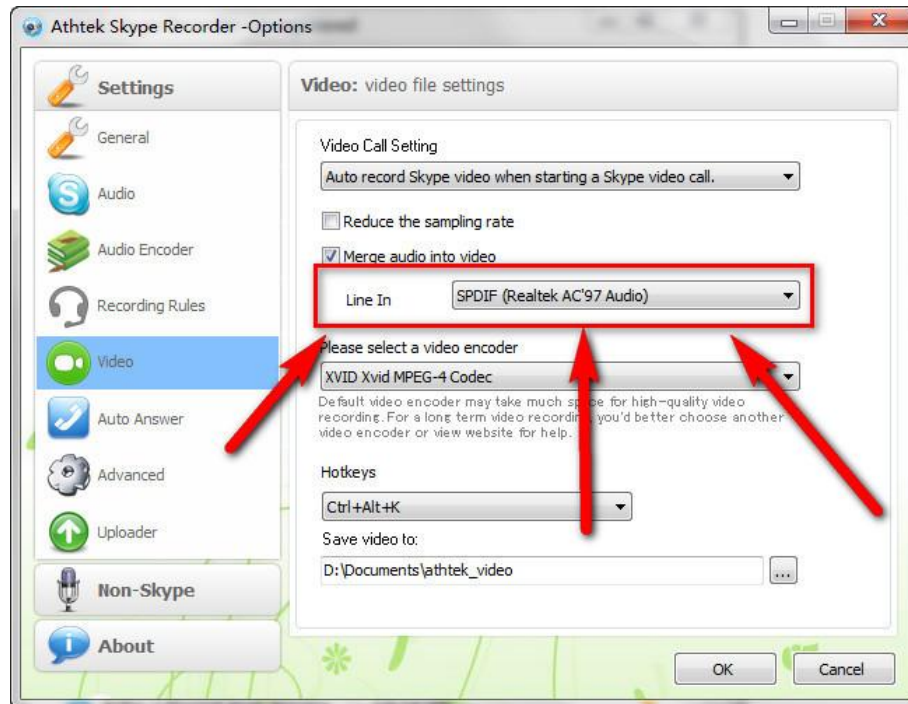

In AthTek Skype Recorder v5.9, even you have already activated your license, the program still shows trial info in About tab. We have fixed this issue in the new version.

*** Supports to select Audio Resource in video recording;**

As the best recording quality Skype call recorder, AthTek Skype Recorder v5.9.5

allows to select audio resource for rich audio effects.

*** The “Access denied” problem in choosing saving path has been solved;**

In the previous version of video call recorder for Skype, you maybe meet a warning message which tell you “You don’t have permission to save record file”. Especially when you are using Win7 or Win8, this problem will happen when you are trying to save recording files to your computer. We have got this problem solved in the new version.

*** Enhance the free audio player for better effects in recordings play back.**

We have optimized the media player in our video call recorder for Skype. This will definitely improve the audio quality when you play the recordings back directly on the program.

In one word, we have greatly improved the features of AthTek [Skype Recorder](#). If you are looking for the solution to record Skype calls for future reference, AthTek Skype Recorder is the best choice for you. Over 400,000 users has used and recommended it!
